January 2015 - November 2019

PROFESSIONAL EXPERIENCE

LEMBAGA GETAH MALAYSIA (LGM), KUALA LUMPUR

Pegawai Teknologi Maklumat (System Developer)

April 2026 - Present

- Involved in the development of MSNR Trace 2.0 using Angular and ASP.NET, implementing new features and system improvements based on business requirements.
- Performed issue investigation, bug fixing, and system enhancements across multiple MSNR Trace 2.0 modules to improve functionality, stability, and user experience.
- Prepared User Acceptance Testing (UAT) documentation, including test scenarios, test cases, and expected results, and supported system testing activities.
- Collaborated with Unit Inspektorat (UIP) to analyze user requirements, verify system functionality, and ensure the successful implementation of new features and enhancements.
- Participated in system testing, debugging, and deployment support to maintain application quality and reliability.

MEDIA PRIMA BERHAD, KUALA LUMPUR

IT Protégé (System Developer)

July 2025 - April 2026

- Assisted in developing the Studio & Meeting Room Booking Dashboard using Laravel and PHP, contributing to improvements in data response time and user experience through AJAX implementation and SQL query optimization.
- Prepared technical documentation for the Studio & Meeting Room Booking Dashboard, detailing system architecture, user interface structure, and data workflows using data flow diagrams to support future maintenance and onboarding.
- Supported internal users in system access management, including creating new accounts, guiding passwords updates, and troubleshooting access issues in CS Deals System.
- Utilized AI tools for development support, code review, and technical documentation efficiency.

FEDERAL LAND DEVELOPMENT AUTHORITY (FELDA), KUALA LUMPUR

Data & System Development Intern

March 2025 – June 2025

- Developed interactive Power BI dashboards for data-driven insights and performance monitoring.
- Enhanced internal systems built on Laravel and SQL, improving data workflows and reliability.
- Assisted in performing system testing and documentation for improved maintenance and scalability.

BERKAT GLOBAL SERVICES, KUALA LUMPUR

Web Developer Intern

September 2022 – February 2023

- Designed and developed the company website using HTML, CSS, and JavaScript, ensuring responsiveness, accessibility, and user-friendly navigation.

SELECTED PROJECTS

MSNR TRACE 2.0 - WEB-BASED SYSTEM ENHANCEMENT & DEVELOPMENT

- Involved in the development and enhancement of MSNR Trace 2.0 using Angular and ASP.NET to support operational requirements and improve system functionality.
- Performed system troubleshooting, bug fixing, and module enhancements to ensure system reliability and usability.

STUDIO & MEETING ROOM BOOKING DASHBOARD

- Developed and enhanced a web-based booking dashboard using Laravel, PHP, and Microsoft SQL Server to improve room management processes.
- Prepared technical documentation covering system architecture, data flow, and system maintenance references.

KAJAJR: PERSONALIZED MOBILE APPS FOR ACADEMIC PROGRESS TRACKING RECORD

- Built a mobile application using Flutter, Dart, and Firebase to enable students, teachers, and parents to monitor academic performance and attendance securely.

JILID ENAM WEB & MOBILE APP

- Developed integrated web and mobile applications to streamline order management, QR-based payment notifications, and inventory tracking using Laravel, SQL, Java, and Firebase.

LEADERSHIP & COMMUNITY ENGAGEMENT

BARAKAH BURN CHALLENGE JPPT FELDA

Emcee Program

- Supported event coordination by serving as the program emcee, ensuring smooth flow and audience engagement throughout the event.
- Collaborated with the Industrial Supervisor to review and revise the emcee script for clarity and relevance.

CYBERSECURITY AWARENESS

Head of Pre Event Team

- Conducted a community service called Cybersecurity Awareness for Ethical, Social, and Professional in ICT courses at Kg Budiman, Meru, Selangor.
- The brainstorming flow program and activities need to be conducted during the event.

REMAJA BIJAK SIBER

Deputy Program Director

- Conducted a community service called Remaja Bijak Siber for Information and Network Security courses at SMK Seksyen 18, Shah Alam, Selangor.
- Planned and conducted program flow and activities during the event

UiTM RAUB PHOTOMEDIA CLUB (PMC)

- President of Photomedia Club - Session 21/22
- Program Director Photomedia Recruitment Day (PRD) – Session 20/21
- Program Director Multimedia Hone Skill (MHS) – Session 20/21
- Exco of Strategic Public Affairs – Session 20/21

TECHNICAL SKILLS & CERTIFICATIONS

Programming & Development: Angular, ASP.NET, C#, Laravel, PHP, SQL, HTML, CSS, JavaScript

Productivity Tools: AI-assisted development tools (ChatGPT, GitHub Copilot, Cursor)

Version Control & Design Tools: Git, GitHub, Figma, Canva

System Development & Support: System Development Lifecycle (SDLC), System Testing, User Acceptance Testing (UAT), Bug Fixing, System Enhancement, Technical Documentation, User Access Management

Languages: Fluent in English and Malay
